INTRO: -----

Life is like a big tree we are the leaves we people of the world  
Bb D- E A  
is it just a very good idea or do you really believe in it  
G D C E-  
these aren't just a few words you can start from those who live around you  
F F- D-7 G4 G  
you don't really need to go so far away  
C C7+ F G C  
Yes I know, bu let me look around I see a lot of people  
Bb D- E A  
But only a few friends then desert comes and nobody hold out their hand  
G D C E-  
and yet you'll find inside our little story something a tinty seed is sprouting here  
F F- G4 G  
if you look with new eyes then you can see

C C7+ D-7 F7+ G  
Unity I don't think it's just a word but you can turn it into  
C C7+ F E  
Reality when all hearts will join together it will be forever  
A- F C G E  
it will be a new season all around the planet  
A- G F G C7+ F Bb G  
then love and peace like flowers will grow if unity you sow  
C C7+ D-7 F7+ G  
Unity like a cracked and thirsty ground you know the world just need it  
C C7+ F E  
unity we will cry this word out loud because this is our deam now  
A- F C G E  
unity and the earth will come to have a heart again  
A- G F G C7+ F Bb G  
a beating heart for everyone as bright as a new sun

C C7+ F G C  
Maybe it won't always be easy going through so many splits  
Bb D- E A  
or it won't even be possible to live in unity  
G D C E-  
but just believe that every failure and disappointment surely some day will bloom  
F F- D-7 G4 G  
from pain and sorrow some day will bloom...

Unity...
